Thank you, Madame Chair

Let me make a short statement. As a NGO I cannot make a “point of order”, but let me make a short point of political correctness. My first Conference was Cop 5, in Buenos Aires and I visit all conferences. Now I am here in this beautiful country. But by all Cops is always the same. Madame Chair, in front from you we see the table “chairman”.

Madame Chair you are not a chairman, you are a wonderful chairwoman. And to the secretariat, please change this table chairman, when we have a chairwoman.

The reality is also, more than 50% of the environmental NGO is the head woman, and that is good so.

And also is the reality, the destroying from the nature is 98% from man, only 2% destroy woman our world. And I say to the secretariat, please have more respect for the wonderful work was woman make in the entire world for species protection.

Thank you, Madam Chair
