CoP19 Prop.4
Zimbabwe

Loxodonta africana
(African elephant)

Namibia, South Africa and Zimbabwe.
Proposed amendments are shown in strikethrough:
For the exclusive purpose of following:

- a) trade in hunting trophies for non-commercial purposes;
- b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf.11.20 (Rev. CoP17), for Botswana and Zimbabwe and for in situ conservation programmes for Namibia and South Africa;
- c) trade in hides;
- d) trade in hair;
- e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia, South Africa and Zimbabwe and for non-commercial purposes for Zimbabwe;
- f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe;
- g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following:
 - i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin);
 - ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf.10.10 (Rev. CoP17) concerning domestic manufacturing and trade;
 - iii) not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;
 - iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa);
 - v) in addition to the quantities agreed at CoP12, government-

a very frivolous proposal, whether dealing in hair or ivory, it costs the elephant's life

DCSP recommends that this proposal be **opposed**.

<p>CoP19Prop.5</p> <p>Burkina Faso, Equatorial Guinea, Mali and Senegal</p>		<p>This application ensures that there is no longer a country that doesn't go for total protection of the elephant. But it is more than the total Annex I listing of the elephant. It is a scientific fact that more than 330 plant seeds need the etching of the seed in the elephant's gastrointestinal tract to germinate at all. No mammal on earth is responsible for as many plants to come to germination as the African elephant. In other words, a lot of plants die out when the African elephant dies out.</p> <p>The future of Africa is at stake!</p>
